Subject: ICML 2021 Expert Reviewer Invitation
From: Microsoft CMT <email@msr-cmt.org>
Date: 2021/02/09 19:22
To: Ichigaku Takigawa <ichigaku.takigawa@riken.jp>

Dear Ichigaku Takigawa,

ICML 2021 has created the Expert Reviewer (ER) category.

You have been designated as an Expert Reviewer based on your high quality reviews in past Machine Learning conference and overall experience. An ER will get a smaller load of papers initially (1-2 less than the average reviewing load) but is expected to be assigned up to 2 other papers later, possibly after March 11 and to respond promptly.

Your role will thus be to help AC with the more difficult decisions, papers with low confidence reviews, with reviewer disagreements, or which are missing original reviews. The purpose is to provide quick and expert opinions on those papers that can benefit from additional expert reviews in a relatively short time period. Since many of the ER additional assigments will be made near, or after the original reviewing period ends, the turnaroud time will necessarily be shorter. This is why we ask you to confirm, as soon as possible, that you accept this role.

Please go to this link by midnight February 10 (anywhere on Earth) to accept this invitation.

https://forms.gle/zY75yKkGBkNXn51y6

If you cannot take on the ER role, or do not respond to this message, then you will remain on the reviewer list as a regular reviewer.

Thank you for your work in support of ICML.
